Recovering Together—A Community Gathering

Tuesdays, 12pm PT

90-minute virtual group

Join this drop-in supportive community gathering, led by Entertainment Community Fund social workers, for California-based entertainment professionals who have lost a residence, been displaced or have otherwise experienced significant damage to their residence as a result of the Eaton or Palisades fires in January 2025. This space offers a chance to connect with others who understand the unique challenges that this disaster has on the industry, share experiences and find solace in the community. Participants are encouraged to share resources to aid recovery and rebuilding efforts. Whether you would like to talk about your personal experience, seek advice or simply want to listen, we welcome you to come as you are. Together, we can navigate this difficult time and foster resilience within our creative community.

This is a weekly drop-in gathering. To ensure a positive group experience, the following Zoom etiquette is expected from attendees:

- No solicitation or pitching of projects
- No recording of the group meeting
- Dress as you would in a public setting
- Participation with your camera on is expected

If interested in attending the group, please email the group facilitator Chris at csmith@entertainmentcommunity.org to coordinate a brief screening call.
